

Floatation therapy is a powerful method for rest, recovery and general health maintenance. It can train your body into better sleep patterns, reduce the effects of deep-set stress, and offset the dangers of chronic inflammation.

driifloat®

life enhancing beyond ordinary

Driifloat is a deeply therapeutic experience for the body and mind.
Reduce stress, maintain health, recover from injuries faster, remove tension from your entire muscular system, improve performance.

driifloat®

performance and energy

Our floatation beds in dry technology, will fit seamlessly into many environments, from home to office, to spa to gym, are easy to install, require little maintenance and combine speed and simplicity into an efficient float therapy session.
